

“The University Campus of Esports (UCES) relies on high end technology to deliver a truly unique experience to its students, so it was vital that UCES partnered with an organisation that had in-depth knowledge and a thorough understanding of what we wanted to achieve”

David Thomson - Director & Co-Founder at UCES

From Classroom to Campus; IT That Just Works

Why Choose Us?

- 1** Supporting education from nursery to higher education with reliable IT for teaching and learning.
- 2** Strengthening safeguarding and PREVENT through secure systems, cyber protection and user awareness.
- 3** Keeping VLEs such as Teams & Moodle, classroom technology and critical systems secure & available
- 4** IT support aligned to students, staff and administrators, from daily operations to digital transformation.

Organisations we already support

Industry-leading esports institution delivering applied learning and industry pathways.

Established Flight School delivering quality pilot training, aircraft access and member-led aviation.

Leading osteopathic education provider known for clinical training and patient-centred learning.
